Inman Questions Construction Plans

The Elba City Council met Monday evening, and along with routine business, heard from a mad councilman who was upset over what he thought was a case when the mayor "went ahead and circumvented the vote of this council".

Councilman Sonny Inman began his presentation from his council seat after checking to be sure all council members and the press could hear him clearly. He noted that his first words would be quoting from the

July 17 Enterprise paper (Enterprise Ledger) and he read from a routine news article about the monthly city school board meeting. He read the portion of the article dealing with the recommendation that the board hire a firm to design a band room for the high school to be financed by the City of Elba. He stated he wanted it to be perfectly clear that the Elba City Council didn't vote to construct a band room - not at this time.

Inman then quoted from the minutes of the council meeting where the council had voted to draw up specifications and take bids on the band room, fire station, fire truck and building rest rooms at the football field. Inman noted that he had asked for the restrooms to be split off from the other projects and constructed immediately, but that Mayor English had told him the banks would rather finance all projects at once rather than several separate loans.

He said someone had called his house and said they were building the restrooms. Inman added at this point that he didn't take Mr. Roland Powell down there, and that Powell was there talking to some workmen when he arrived.

He said he asked Robert King if he had the contract for the project, and he said he was furnishing the labor following a meeting at city hall. Inman said that meeting was attended by the mayor, city clerk,

Commission Postpones Action On Proposed Purchase Of Heavy Equipment

The Coffee County Board of Education met on Tuesday, July 24, in Elba and adopted new district school lines that will affect students in the northeast corner of Coffee County.

The closing of New Hope School led to the changing of district lines, and under the new plan the former New Hope students will attend either Zion Chapel or New Brockton.

The New Brockton school district will now extend up Highway 167 to County Road 60, over to Cole's Bridge and across County Road 36 to the Dale County line. The area north of the new boundary will be in the Zion Chapel district.

The change will only add 7-10 students to New Brockton," said Supt. John W. Vaughan, "and it will not have a major impact on the length of existing bus routes. Any student in the county system may attend another county school by simply meeting another bus at a routine stop, so the new district lines will not create any problems."

The closing of New Hope also created the possibility of a number of students entering school in another county; however, the board discussed taking action to eliminate such a problem.

The possibility of the students going to school in Arton is made more likely because of a Dale County school bus that runs a route in a

small portion of Coffee County. The bus has reportedly been coming into the county since 1947 and picking up students who should attend Coffee County schools.

Supt. Vaughan stated he would meet with the Dale County Supt. of Education to discuss the matter, and told the board it could stop the bus from entering the county simply by form of a motion.

The board instructed Vaughan to report back on the matter at its next meeting.

Before leaving the subject of the New Hope School closing, Supt. Vaughan informed the board the land on which the school was built was deeded to the county by the state, and to dispose of the property, all state regulations would have to be met. The two options would be (1) sell to the highest bidder, or (2) have the property appraised and then sell to any buyer.

The board made no decision, but did state it would like to let the property "benefit the community."

The meeting began at 7 a.m., with the first item on the agenda being the awarding of contracts. No bid was received on coal and it was decided a contract would be negotiated. The county schools use approximately 250 tons of coal annually.

The low bid on milk products was received from Barber's, who was awarded the contract. Also bidding was Dairy Fresh and Flavor Rich. Items included on the bid were whole milk, skim milk, chocolate milk, buttermilk and orange juice.

On the national level, the comparable rate advanced from 7.2 percent in May to 7.3 percent in June.

Heatherly said he expected July's unemployment rate to continue to reflect the influx of summer jobseekers into the labor market, resulting in higher unemployment throughout the remainder of the summer.

Commissioner Charlie Mack Martin opposed the delay and stated "I am ready to buy equipment. I was in favor of getting bids earlier and I am not in favor of tabling the purchase. Let's meet and look at the bids and then do something!"

The commission, by a vote of 5-1 (Martin voting no), agreed to study the bids and take some action at the August 13 meeting.

Monday's meeting began at 9 a.m., with all members present, and the first order of business was to open bids on regular gas and diesel fuel to be used by the county highway department for a three-month period. The only bid received was from Hess Oil Company. It was an amount of \$1.00 per gallon, and gas prices were checked at the

Unemployment Rate Edges Upward In During June

As expected, Alabama's unemployment rate advanced temporarily over the month, according to William R. Heatherly, director of the Alabama Department of Industrial Relations. The June rate measured 10.8 percent, up from 10.4 percent in May, but still well below the rate of 13.7 percent recorded a year ago. June's 10.8 percent rate represented 194,200 unemployed, compared to 185,500 in May, and 244,400 a year ago.

Although monthly employment advances in the wage and salary employment component of the economy totalled 12,400, declines in agricultural employment, coupled with the influx of summer jobseekers into the labor force, temporarily

pushed the June unemployment rate upward. In the wage and salary component, the most significant over-the-month increases were 2600 in construction and 10,500 in a federally-funded summer employment program for economically disadvantaged youth.

On the national level, the comparable rate advanced from 7.2 percent in May to 7.3 percent in June.

Heatherly said he expected July's unemployment rate to continue to reflect the influx of summer jobseekers into the labor market, resulting in higher unemployment throughout the remainder of the summer.

County Engineer Frank Charlton reported the commission needed to apply for federal funds to repair County Road 25. The road, according to Charlton, is in need of immediate repair due to abuse by loggers. The commission agreed to apply for the funds and signed the necessary paper work.

A request by Charlton to add two full-time employees to the work crew in Work Area 4 drew an immediate response from Commissioner Rex Boutwell, who declared there were more dirt roads in his district (Work Area 3) than in Work Area 4. Charlton said the workers were needed in Work Area 4 to "catch up" on work, but Boutwell insisted there was also plenty of work to do in his area. The commission voted unanimously to add two employees to Work Area 4 and one to Work Area 3.

In other action at Monday's meeting, the commission:

- Accepted a letter of resignation from Edford Kelley, a member of the Damascus Water Authority.
- Appointed Judge Marion Brunson to serve on a steering committee for the Alabama Association of County Commissioners.
- Appointed Judge Brunson to serve on the Governor's Liaison Committee for Disabled Persons.
- Agreed to meet with a Soil and Water Conservation officer about work on a gully on the Harold Godwin Road.

Traditional fireworks were enjoyed on the night of the bonfire, lighting up the sky with sound and color.

Those attending were: Noel and Elizabeth Alloway and son Scott of Duncin, Florida; their other three sons and families, Wayne and Judy Alloway and children, Wayne and Christy of Jonesboro, Georgia; Kevin and Linda Alloway and children, Andy and Angie of Easley, South Carolina; Bryan Alloway and children, Kim and Shawn of Ashford, Alabama; Becky Alford, Dothan, friend of Bryan; Ruby, Minnie Mae, Selma of Woodbridge, Virginia; Ronald and Henrietta Farris and children, Brad and Yonda of Montgomery; Maxwell and Inez Nelson of Dothan; Orgie Weeks, Enterprise; Dave and Dora Colquitt and daughter Beverly of Opp; Chris and Deborah Vaughn, Florida, L.A. and Annie Farris; Mike and Linda Farris and children, Michael and Dennis; Max and Ann and son Scott; Rev. and Mrs. Alan Moore and son Phillip, and the host and hostess, James and Mathaly, all of Basin Community.

Many hours were spent reminiscing over past events blending the four generations and photo albums were enjoyed together. Family members departed with the usual, "see you next year," and they packed and bid their farewells.

PROFESSIONAL TOUCH
When you are sewing on white fabric, whether for skirt, dress or slacks, use flesh-colored pocket lining fabric. This fabric will help prevent outlines. In fact, you could use flesh-colored linings for the entire garment to help prevent seams from showing and to give a more finished, professional look.

FREEZING OKRA
Okra is so good in the winter. Don't ruin it by not blanching. I've had several telephone calls asking how to freeze okra. Select tender pods. Wash. Blanch 3 minutes in boiling water. Chill and pack.

Okra can be meal and frozen for frying this way. After blanching for 3 minutes, chill in the freezer on a cookie sheet. When rather firm, slice and meal. Return to cookie sheet, one layer deep and finish freezing; then pack in container for long time storage. Be sure to leave the cap on the okra during blanching.

ORGANIZED FILES
We all could spend more time organizing our files. It is so frustrating not to find some important paper. Can you find your birth certificate, marriage license, insurance policies, social security number? Or better still, does someone in your family know where these items are? It helps to write down face value on life insurance policies along with the name and address of the insurance agent.

Keep the paper showing the location of your will, the location of keys to the safe deposit box. Keep your income tax returns for the last four years.

HOME OF MRS. LOZINE HENRY. I just thank God and the people responsible. I'm about to retire and now I can stay home and really enjoy it."

In Philippians 4:8 God through Paul says: "Finally, brethren, whatsoever things are true, whatsoever things are honest, whatsoever things are pure, whatsoever things are lovely, whatsoever things are of good report; if there by any virtue, and if there by any praise, think on these things."

I have shared with you already God's word, which is the good and fulfilling life, can only come when we put forth our best effort, letting God help us and go beyond our capabilities. We can't just sit back and expect good things to happen all by themselves.

We must seek for and put forth great effort if we are to have the best and most beneficial and rewarding things of life.

There is always a chance and it's not too late to turn to the Lord, brethren. God has a purpose for all of us and let us have a purpose for Him. When we become a Christian, we will march to a different drummer. "We are of God, little children."

The world hated the Lord before it hated us as Christians. Let us try to bring sinners to Christ. You become a square and strange to the world of sin. "God sent Jesus into the world not to condemn the world but that the world through Him might be saved," which is the gift of God. We can go to church and give our goods to feed the poor and do right in our sight but if we are not born again, we are lost, and have not the love of God in us. We must love everyone regardless of what they do, but not love their ways.

We all make mistakes and if we stay around a person long enough we will find something about the person we don't like, as we are not perfect. Don't let the sun go down on your anger. "The Spirit is willing but the flesh is weak." Let us put on the whole armor of God. Let us be humble and obedient to God always. Much prayer and praise to God. Paul said: "I cannot be disobedient to God." We will put on the whole armor of love after we are saved. We should love people even more than we do ourselves and strive to do

Set your goal in prayer and your eyes on the Lord and you will obtain your mark; and turn toward your goal. Be obedient to God as much as possible. Be alive with Christ and have a vision. Being saved is only a start. Do the things the Lord reveals to you.

Today an ATM (automatic teller machine) is used on the average of 200 times daily, and has brought a significant reduction in the number of checks written for cash.

To facilitate even greater use and acceptance of ATM's, overcome legal restrictions in some states and develop economies of scale, financial institutions have begun sharing ATM's with one another. The computer systems, that are being developed to electronically switch these ATM transactions from one bank to another will be capable of supporting a similar type of transfer at the retailer's cash register, automated fuel dispenser or ticket dispenser to debit the consumer's bank account and credit the merchant's account for a sale.

In the new payment system, you could leave for work in the morning with only your bank card in your pocket and stop by the convenience store for a cup of coffee, some gasoline and \$10 in cash for lunch and parking - handling all these transactions with your debit card.

While at work, you could have your paycheck deposited to your account electronically. Then on your way home you might stop at the supermarket and use your card in the ATM there to check your bank account balance, transfer funds to your savings account, pay your telephone bill and withdraw \$25 in cash. After completing your shopping, you could pay the bill by using your debit card at the cash register.

Plastic Check : Mode Of 1980's

[From an article by R. Douglas Easters Jr., in "The Atlanta Journal and Constitution," Monday, July 2, 1984]

The plastic bank card you carry in your wallet or purse will be your retail checkbook in a future payment system that already is beginning to take shape in America. In the 1980's we are getting acquainted with the concept of a "plastic check" - using a bank card instead of a check to debit, or withdraw money from, an account with a financial institution and pay bills electronically.

The debit card, when used with a secret, four-digit personal identification code, serves the same purpose as a signature does on a paper check.

Today an ATM (automatic teller machine) is used on the average of 200 times daily, and has brought a significant reduction in the number of checks written for cash.

To facilitate even greater use and acceptance of ATM's, overcome legal restrictions in some states and develop economies of scale, financial institutions have begun sharing ATM's with one another. Dr. Whitman To Lead Shakespearean Seminar

Dr. James Whitman, Elba native and son of Mrs. J.D. Whitman, will be the discussion leader for a four-part seminar on Shakespeare and his plays now in session at the Mobile, Alabama, Public Library.

The seminar, which began July 12, meets each Thursday at 6:30-8:30 for four evenings.

Following the seminar the group will travel to Annapolis to attend five performances of two Shakespearean plays, "Macbeth" and "Love's Labour's Lost," at the Alabama Shakespeare Festival Theatre on the weekend of August 11-12.

Dr. Whitman, professor of English at the University of South Alabama, holds degrees in English from Troy State University and Florida State University and is director of an earlier Mobile Public Library series, "The Great Tradition of

English Literature," says, "Anyone who has attended programs hosted by Dr. Whitman will understand fully why we asked him to lead the Shakespeare seminar. His elegant command of the language, his zest for the Elizabethan theatre, and his delight in sharing his enthusiasm with his classes make him a natural choice for this project."

Whitman says, "The summer I worked with the Royal Shakespeare Company at Stratford was a turning point for me. Prior to this experience I had taught Shakespeare strictly by the book. At Stratford I learned how the textual approach can be combined with a study of the actual performances of the Bard's plays on videotape. This opened up exciting new vistas for me and for my students."

NOT IT IS NOT THE NEW YORK ROCKETTES...but the Kleinert's MANAGER-METTES as they gathered in front of the large banner proclaiming Employee Appreciation Day. Left to right: Bence Carter, Terry Calhoun, Tom Kapes, Will Morrow, Van McCall, Pinkney Sims, Myrna Cowen, Ronnie Sasser, Wayne Davis, Buddy Brunson and Robert Lisenby.

DOOR PRIZE WINNERS...The five winners: (left to right) Judy James, TV; Betty Sue Weeks, grand prize winner of \$300 cash; Nadine Jones, stereo; Angie Lucas, telephone/radio; and Edith Sasser, smoker/grill.

The Elba plant of Kleinert's of Alabama enjoyed an Employee Appreciation Day celebration on Friday, June 29. The activities were held prior to the July Fourth vacation shutdown.

Everyone was encouraged to dress in the style of the 50's and 60's and taped music was provided. Balloons, streamers and other decorations were hung throughout the plant.

At 11:00 a.m., all employees gathered in the cafeteria area where Pinkney Sims, vice-president/general manager gave a short review of the company's progress. He spoke about the 1984 increase in business which produced an increase in employment; the completion of the new roof project and the overall plant was increased effective July 9. Sims also informed the employees of two additional benefits. Good Friday was added as a paid holiday, bringing the total paid holidays to nine and a service bonus will be paid to all employees with ten or more years of service effective June 30, 1985.

Will Morrow, personnel director and general chairman of the Employee Appreciation Day Committee, was next to speak. He thanked the Appreciation Day

Committee, consisting of: Sue Brewer, Nina Sawyer, Kala Holloway, Sandra Smith, Jeanne Dunnivant, Sandy Nelson, Brenda Vaughn, Sherry Gilmore, Mark David, Weeden Vann, Sane Henson, Jennifer Stinson, and Sharon Golden, for their diligent work and cooperation. He then listed the door prizes and stated the employee eligibility for winning. The prizes were: employees of under five years—two prizes of \$50.00 value; employees of 5-9 years—one prize of \$100.00 value; employees of 10 years and above—one prize of \$200.00 value; and the grand prize of \$300.00 cash; which everyone was eligible for.

Bence Carter, Buddy Brunson and Myrna Cowen each conducted door prize drawings followed by Terry Calhoun and Brunson presenting special awards to Lois Sanders and Louise Williams. These ladies were honored as the two employees with the longest length of service with the plant and presented engraved awards in recognition of their years of employment.

Following the conclusion of the speeches, prizes and awards, a barbecue lunch was served.

LOUISE WILLIAMS (left) and LOIS SANDERS (right) are shown holding their engraved awards. They were honored for being the employees with the longest length of service at the Elba plant. Both started with the company on October 13, 1969.

WHITE SOCKS, POODLE SKIRTS AND PONYTAILS were included in the 50's and 60's dress theme many employees wore for the activities. The pictures indicate that everyone had a good time and the Employee Appreciation Day was a complete success.

Debt Owed Grantham Is Paid

In a letter dated May 15, 1984, an Arkansas man offered to pay a 54-year-old debt to a man who he says helped him out financially in the strained years of the Depression.

In a letter addressed to "Mr. R.C. Grantham, New Brocton, Alabama," Raymond Terry of Hot Springs, Arkansas, attempts to repay Grantham what he believes he owes him.

The letter was forwarded to one of Grantham's daughters in Elba, Mrs. Barbara Hudson.

The letter is quoted below:

"Dear Mr. Grantham:

Recently I was going through a lot of old papers and I found a letter

from you dated January 31, 1930, asking me to try and pay some on what I owed you.

"When I was in New Brocton I was trying to save my business; however, the odds were against me, and I lost everything I had and owed lots of money to a number of people --one especially that had a mortgage on everything -- or the most of everything I had and I was forced into bankruptcy.

"I had no job and me and my family suffered in many ways for a long time before I finally got a job again -- which barely was enough to keep us alive for a long time.

"I seem to remember that I owed you some money -- how much I do not remember; however, it was a long time before I got able to pay anything back and the mortgage to the bank took what I could pay back for a long time and your letter got lost in some other old papers.

"I just found this letter recently and I am writing to you, hoping you will receive this letter. I don't think I owed you any big sum of money -- and I don't remember what it was for. I do know I lost a pile of money on Crayke while I was in your town.

"Therefore if you will write me a letter telling me what you think I owed you -- I will try to start paying it within a short time. I have been paying back these old debts of mine

a long time and I would like to pay you what I owe you.

"Please therefore write me as soon as possible and tell me how much I owe you and if you remember, tell me what it was for.

I am now 91 years old and living here in a retirement home.

"Hoping I hear from you soon, I am

Dot Smith, another of Grantham's daughters in Elba, said none of the family had any idea who Mr. Terry is, what way their father befriended him, or anything at all.

"We never saw him, nor heard our daddy talk of him," Dot said. "All we can say is we appreciate the thought of paying his debts. We did reply to him, telling him we knew nothing at all about any money owed Daddy, and that anything he wanted to do was okay with us. He sent us \$50 on the debt. We just were touched to know Daddy helped someone so long ago, and they want to repay the kindness."

"The only thing we can figure out," Dot said, "is that Daddy let him have groceries out of his store, or something like that. He did a lot of that back in those days."

NOTICE OF FINDING OF NO SIGNIFICANT IMPACT ON THE ENVIRONMENT

COMMANDER, FORT RUCKER ATTN: ATZQ-EH-E

FORT RUCKER, AL 36362
PHONE: (205) 255-5296

To all interested agencies, groups, and persons:

1. Proposed Action. The proposed action involves the ultimate construction of seven stagefields for the flight training of helicopter pilots. Each stagefield will require approximately 150 acres of land which will be purchased in fee. Noise easements will be acquired on land surrounding the stagefields. The stagefield sites are located in south-east Coffee County and in north-west Geneva County, both in Alabama.

2. Purpose of Action. The seven stagefields are required to enable the government to accommodate increased student pilot flight training projected for the future. It is not possible to increase pilot flight training with the present facilities.

3. Alternatives Considered. Alternatives to the proposed action which were considered include:

a. More intensive use of existing stagefields. This alternative was eliminated from further consideration because additional aircraft saturation of the airfield at existing stagefields above present use would intensify air traffic beyond acceptable safety limits.

b. Training at other existing facilities. This alternative was eliminated from further consideration because it is not in the best interest of the Government due to the interrelationship of the total aviation training program which should be accomplished at one installation.

c. Use of existing sites currently owned by Fort Rucker, AL. Fort Rucker owned sites that are not currently being used.

d. No action. The No action alternative would prevent environmental impacts from occurring; however, the increased student pilot flight training could not be accomplished.

e. A total of twenty-nine sites were evaluated for use as stagefields. Eight of the sites were determined to be unacceptable for engineering reasons. Impact of noise pollution and environmental and cultural impacts were considered in eliminating 14 additional sites.

4. Environmental Impact of the Proposed Action: It has been determined that the proposal would not constitute an action significantly affecting the quality of the human environment. Accordingly, the Commander, Fort Rucker, has decided not to prepare an Environmental Impact Statement (EIS) under the National Environmental Policy Act of 1969 (PL 91-90). Reasons for the decision not to prepare such a statement are as follows:

a. Adverse noise impact, if any, will be mitigated by acquisition of noise easements surrounding each stagefield.

b. Prime farmlands will be impacted by action, however, selection of any one of the twenty-nine sites would have resulted in the conversion of prime farmland to non-agricultural use. Approximately 1200 acres, at most, would be converted to non-farm use. d. There will be no impact on endangered wildlife species.

Views From THE PRESSBOX BY RICKY MULARZ, EDITOR

The Elba Recreation Department will host the Men's Class B District Softball Tournament this weekend and I urge all local softball fans to come out and watch some of the action. The Elba Merchants will be Elba's only entry, but the tourney will include several top quality teams, and it should be one heck of a tournament!

Let's show the District officials how well we support softball by coming out and packing our complex. Let's show 'em we're the top softball town in South Alabama.

The Lindsey's Law women's softball team competed in Geneva last weekend and brought home the District Class C championship. The team has totally dominated the Elba Women's League and swept through the 14-team tourney unbeaten to claim the title of "District Champions!"

Okay, ladies - now bring Elba its first State title.

The Elba Country Club will hold a Four-Ball golf tournament this weekend, and over 100 golfers will be in town to compete for cash prizes. The Elba tourney is one of the favorites in the area and draws some of the tri-states area's finest golfers.

You might find it interesting to go out Sunday afternoon and watch a little action.

A softball league for men "Over 40" will begin on August 7 in Elba, and last for three

Men's Class B District Softball Tournament Set For Elba

The Men's Class B District Softball Tournament will be held in Elba on Friday and Saturday, July 27-28, with a total of 14 teams competing.

Teams entered include Sport About - Dothan Outboard, Home Oil, Andalusia Welding, Jackson Gas, Dairy Fresh, C&M Blazers, Village Inn, Day's Grocery, Hightower Loggers, B&D Merchants, Sandwich

Shopee, Slocomb Merchants, Center Drugs and Elba Merchants. The double elimination tournament will begin on Friday night and continue all day Saturday.

Tri-County Falls In State Tourney

The Tri-County 17-18 Year Old Babe Ruth All-Stars competed in the State Tournament last week at Livingston University and lost two straight games.

The Tri-County team was composed of players from Opp, Elba, Andalusia and Samson.

Chocoway County rode the pitching of Jeff Branson to a 5-0 win over Tri-County in the tourney opener. Chocoway scored a run in the first-inning and pulled away late to post the win.

Terry Ware's single in the third and a pinch-hit double by Victor McKenzie in the sixth were the only Tri-County hits.

Elmore County took advantage of 7 errors to claim a 10-5 win over Tri-County. The Tri-County team pulled out to a quick 2-0 lead, but 5 Tri-County errors in the second-inning allowed Elmore County to take the lead for good.

Terry Ware drew a walk and stole a base for Tri-County, while John Hudson drew a bases-loaded walk.

Grant Approved For Construction Of City Pool

Elba Recreation Director Dennis Smith announced this week that the Department of Conservation and Natural Resources had approved the City of Elba's grant request for funding to construct a new city pool

at the Hawkins-Williams Recreation Park. The announcement came on Monday, July 30, at a meeting of the Elba Recreation Board. In making the announcement,

Smith stated a \$50,000 grant had been approved, and additional funding was expected at a later date. The new pool, which will complete the third phase of the recreational plan at the Hawkins-

Williams Park, will be but a portion of the actual construction planned at the site. The total construction project, estimated to cost \$221,400, will include a 75'x45' pool; a 36'x37' diving well; a 10'x14'

wading pool; lifeguard facilities; a one- and three-meter diving board; a barbecue with showers and restrooms; lighting and fencing, and a picnic area with a 20'x40' pavilion, 15 picnic tables and 10 outdoor grills. Construction is expected to begin in late 1984 and the new pool is planned to be opened in the spring of 1985.

During the meeting the Recreation Board also heard from members of the Elba Tennis Association. A

sportsman for the association stated the newly organized club would promote the play of tennis in Elba and educate the public on the proper use of the courts. It was also announced the association would conduct a "play night" on each Tuesday night from 6 p.m. - 10 p.m. at the new complex. The courts will be open only to association members on this night. There is no membership fee required to join the association.

Yelverton Becomes First Black

Elected To Office In Coffee County

Mrs. Gladys H. Yelverton became the first black ever elected to a public office in Coffee County on Tuesday when she was elected to

serve on the Elba City Council. Yelverton, a counselor at Enterprise State Junior College and a member of the Elba City Board of Education, defeated incumbent councilman L.F. "Sonny" Inman 430-392, in a runoff election. Yelverton, who will take office on Monday, Oct. 1, will be forced by law to vacate her seat on the School Board.

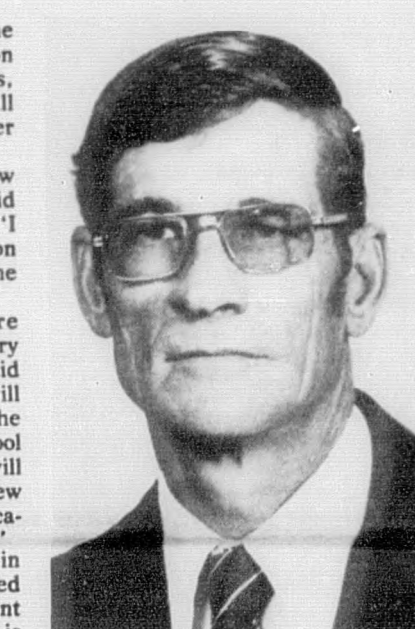

Tom Dyess Seeks Full Term On County School Board

Tom Dyess, a member of the Coffee County Board of Education for the past one-and-a-half years, has announced plans to seek a full term on the Board in the September 4 Democratic Primary election.

Dyess, a native of Elba who now resides in rural Coffee County, said in making his announcement, "I pledge to support quality education and I elected I will work to better the school system in Coffee County."

"Our schools need more materials and supplies to offer every advantage to our students," said Dyess. "I have worked and will continue to work to insure the students in the Coffee County School System a quality education that will prepare them for the future. New buildings are good, but good education comes before new buildings."

Dyess, who was appointed in 1983 to fill the unexpired term of Ted Fillingim, has had 100 percent attendance at board meetings. He is the manager of the Coffee County Farmers Cooperative, a member and deacon at Westside Baptist Church and a member of the Coffee County Cattlemen's Association. A graduate of Elba High School

and Southern Union College, he is married to the former Elizabeth Church Fuller, and they have one daughter, Krista, a student at Zion Chapel High School.

Attorney General Rulings To Affect All Counties In State

The Alabama Criminal Justice Information Center should not maintain records of Class C misdemeanors and other "non-serious offenses" in its criminal offender record information system, Attorney General Charles A. Graddick said recently. In an opinion issued to Criminal Justice Information Center Director Larry Wright, Graddick said the system should contain only criminal offenses classified as Class A, B and C felonies and Class A and B misdemeanors. The Alabama Criminal Justice Information Center maintains a criminal offender record information system to assist state criminal justice agencies.

Other opinions issued recently by the Attorney General included: --A person must be under arrest for driving under the influence of intoxicating liquors before he or she can consent for a chemical test to determine intoxication. --An elected official may not be appointed as a deputy registrar. --Agents and employees of the State Department of Revenue who are designated peace officers are entitled to subsistence pay. --The grantee is not entitled to credit on deed tax where a previous mortgage, which has been assumed

as part of the consideration, was executed to a tax exempt instrumentality and no mortgage tax was paid upon its recording. --The determination of residency for purposes of voter registration is based on many factors, such as where the person pays property taxes, where he owns a home, where he has a driver's license and where he works. Determination of residency is within the discretion of the Board of Registrars. --A Gadsden city ordinance prohibits an off-duty police officer from wearing his uniform in the City of Gadsden while acting as a security guard for an employer other than the City of Gadsden. In the absence of such ordinance and when authorized by the city council, uniforms and police equipment may be used by off-duty police officers in proper cases. --The Alabama Motor Vehicle Staggered Registration Law supersedes all pre-existing laws relating to the period of time in which a new owner of a motor vehicle must obtain an Alabama motor vehicle license plate, and provides a period of ten calendar days from the date of acquisition for a new owner of a motor vehicle to register the vehicle.

Juvenile Escapes Coffee County Jail

A New Brockton juvenile who escaped from the Coffee County Jail in Elba on Monday, July 30, was still at large on Tuesday afternoon, after eluding search dogs throughout the night.

The escapee, a white male, age 17, was in the county jail awaiting trial on auto theft charges.

According to Coffee County Sheriff Bruce Paul, the juvenile was assigned to the wash detail on the morning of the escape, and apparently climbed on top of a walk-in cooler at an outside storage building and jumped over the fence surrounding the jail yard. It is believed the escape occurred between 3 and 5 p.m.

A break-in occurred at the L&S

Salvage yard, near New Brockton, between 6 and 8 p.m., and a pickup truck was stolen that was parked on the yard. At 10:15 the truck was found abandoned on Highway 51. The truck had a flat tire when discovered.

Track dogs were released at the site where the truck was found and the escapee's scent was picked up. However, after an hour-and-a-half chase, the scent was lost.

ESCAPEE RECAPTURED

The escapee was recaptured on Tuesday, July 31, at 2:30 p.m. at a dirt road off Highway 167, near Gateway Estates.

New Brockton Voters Elect Two New City Councilmen

The voters of New Brockton returned to the polls on Tuesday, July 31, and elected two newcomers to the City Council. In Place 4, Ralph M. Medley

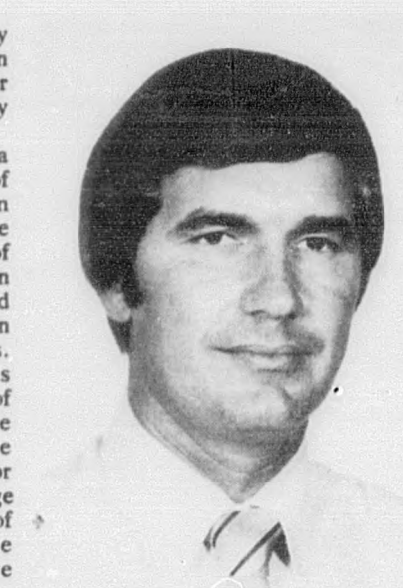

defeated incumbent Dovell "Dub" Jones 203-155, while in Place 5, where there was no incumbent running, Gibby McCormick defeated B.M. Bowdoin 196-160.

Billy Eagerton To Seek Re-election To Commission

Incumbent Coffee County commissioner Billy Eagerton recently announced his candidacy for his second term as Coffee County commissioner, District Two.

"It has been an honor and a privilege to serve as commissioner of Coffee County during my past term of office," said Eagerton. "I take great pride in the achievements of the Coffee County Commission during this term; much needed improvements have been made in the appearance of county buildings. The construction and paving of roads along with the construction of bridges, stand as a symbol to the citizens of Coffee County that the commission strives to do the best for all of Coffee County. The knowledge I gained during the first term of office provides me with the necessary experience to better serve the people of Coffee County."

A lifelong resident of Coffee County, Eagerton is an active member of the New Hope Baptist Church and serves as a deacon and Sunday School teacher. He is employed by Southern Stone Company as an aglime sales representative and is involved in

farming. He is a graduate of New Brockton High School and Troy State University where he received a B.S. degree in mathematics and physical science. Eagerton has completed several courses in Computer Science at Enterprise State Jr. College. "When re-elected, I plan to continue the progress that we are making in Coffee County, and with good leadership this will be done."

Jim Sullivan Seeks Re-election To PSC

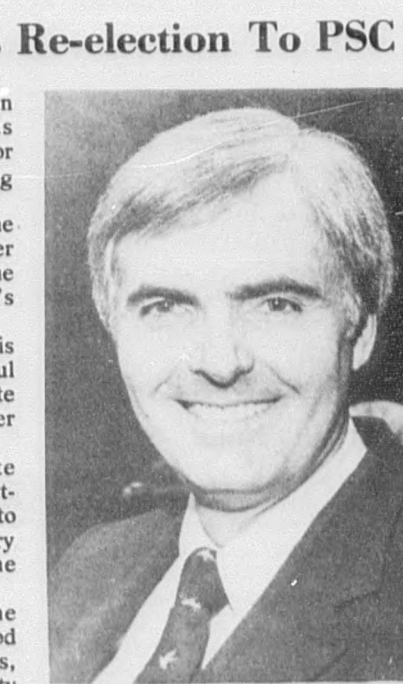

Public Service Commission president Jim Sullivan has announced he will be a candidate for re-election in the upcoming Democratic primary.

Sullivan was appointed to the presidency of the PSC when former president, Billy Joe Camp, left the Commission to join the Governor's staff.

Sullivan pointed out that his administration has been successful in obtaining the first two rate decreases from Alabama Power Company in over 20 years. Sullivan credited the rate decrease to "an honest, straight-forward, business-like approach to rate-making unlike the demagoguery that has characterized the Commission's work in the past."

"I am committed to the philosophy that by working in good faith for the interest of our citizens, we can have the kind of utility services our state needs to prosper and at the same time protect the incomes of working families," Sullivan said.

One reason Sullivan says he is running for a full term is because the legislative package did not make it to the floor of either house during the recent regular session. "I have a vision of a reformed Public Service Commission that will

attract our state's brightest minds rather than a Commission that is constantly tainted with scandal. I believe that vision will lead to a brighter future for our state," Sullivan said. Sullivan already has Republican opposition for the position in the November general elections.
